SECTION I: PROGRAM INFORMATION

List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. (§205(a)(C))

THIS PAGE INCLUDES:

>>> List of Programs

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.121	Early Childhood Education	UG	
13.1202	Elementary Education	UG	
13.1	Special Education	UG	
13.1302	Teacher Education - Art	UG	
13.1322	Teacher Education - Biology	UG	
13.1323	Teacher Education - Chemistry	UG	
13.1324	Teacher Education - Drama and Dance	UG	
13.14	Teacher Education - English as a Second Language	UG	
13.1316	Teacher Education - General Science	UG	
13.1328	Teacher Education - History	UG	
13.1311	Teacher Education - Mathematics	UG	
13.1312	Teacher Education - Music	UG	
13.99	Teacher Education - Other	UG	
13.1314	Teacher Education - Physical Education and Coaching	UG	
13.1329	Teacher Education - Physics	UG	
13.1318	Teacher Education - Social Studies	UG	

Total number of teacher preparation programs:

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

- >> <u>Undergraduate Requirements</u>
- >> Postgraduate Requirements
- >> Supervised Clinical Experience

Undergraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

- 1. Are there initial teacher certification programs at the undergraduate level?
 - Yes
 - No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the table below blank (or <u>clear responses already entered</u>) then click save at the bottom of the page.

Please provide any additional information about or descriptions of the supervised clinical experiences:

Number of cooperating teachers/K-12 staff supervising clinical

Number of students in supervised clinical experience during this

experience during this academic year

academic year

Students are required to undergo field experiences in three instances in addition to their 300 hr. clinical experience. Each of these instances are reflected in the students' e-portfolio and course assignments. The mentoring hours reported include special seminars and individual meetings with supervising Faculty that occur during the students' clinical experience. The number provided of students in supervised clinical experience reflects two different groups (first semester and 2nd semester). There are no specific programs designed for candidates that are teachers of record. Nevertheless, candidates seeking recertification or an alternative route for those with a BA that is not in education, are provided with required courses to complete a teacher certification.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed	d below. Cli	ck on the link to	view the de	finition(s) in
the glossary.

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	33
13.1202	Teacher Education - Elementary Education	75

13.1337	Teacher Education - Earth Science	0
13.14	Teacher Education - English as a Second Language	0
13.99	Education - Other Specify:	0

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

• Yes No

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education	33

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES:
>> Program Assurances

Note: This section is preloa	ded from the prior year's IPRC.
------------------------------	---------------------------------

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teac based on past hiring and recruitment trends.
• Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes No
Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes No Program does not prepare special education teachers
Prospective general education teachers are prepared to provide instruction to students with disabilities. Yes No
Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes No
Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Students have clinical experiences in a wide array of settings which provide them with a clear understanding of the needs embedded in the educational system. Among these experiences are: tutoring, research, class or school settings observation, class demonstrations and preparation of educational materials. An e-portfolio provides them the opportunity to reflect upon those experiences and the quality of their teacher preparation. It also allows them to develop and implement different strategies according to the needs of the groups of Early Childhood and K-12 students with whom they are performing the student teaching or a field experience. Meeting the needs of diverse learners is rooted in the curriculum and perspectives such as multiple intelligences, learning styles, universal design for learning, differentiation, and brain research are taught not only as subject matter but as a philosophy of this TPP. Institution researchers are also engaged in researching topics on diversity with the intent to make recommendations for curricular

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase program enrollment by five participants.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

Visits to schools and activities for teachers and directors Promotions in web page

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lessons learned: students are interested in STEM and computational thinking, so the program proposed elective courses on computational thinking, and underwent a curricular revision to add a STEM course.

Review Current Year's Goal (2022-23)
7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.
Yes No
8. Describe your goal.
Prepare materials to enrich the STEM course proposed for the curriculum
Set Next Year's Goal (2023-24)
9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.
Yes No
10. Describe your goal.
10. Describe your goal.

6. Provide any additional comments, exceptions and explanations below:

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase program enrollment by 15 participants

3. Did your program meet the goal?

Yes

No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

The University of Puerto Rico implemented a new policy for admissions, which provides alternative requirements for diversity populations. We expect that this could be an opportunity to achieve the goal next year.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

Yes No

8. Describe your goal.

Increase program enrollment by 5 participants. In recent years the area of special education has been experiencing a decrease in the number of enrollments. During academic year 2022-23 the program will be revised to determine how it can better meet the expectations of prospective candidates and the needs of the local Department of Education.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

• Yes No

10. Describe your goal.

Increase program enrollment by 5 participants.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

8. Describe your goal.

Increase program enrollment by 5 participants.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

10. Describe your goal.

Increase program enrollment by 5 participants.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

No

If yes, please specify the organization(s) that approved or accredited your program:

✓ State

✓ CAEP

AAQEP

Other specify:

Middle States Comission on Higher Education

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

TH	IIS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation programs	Please note that choosing	'yes'	indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))			

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Ye
- b. use technology effectively to collect data to improve teaching and learning
 - Yes
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher candidates are required to take a course on the integration of technology and the use of the computer (TEED 3017 elementary, TEED 3018 secondary, TEED 3027 early childhood). Students are also required to integrate the e-portfolio as an assessment tool of their educational progress as part of a reflective seminar that is provided in three different instances (FAED 4001, 4002, 4003). The concept of Universal Design is included in courses EDES 4055: Teaching strategies for the inclusion of students with special needs, required for all teacher candidates at the elementary level, and in course EDES 3205: Assistive technology for special education, required for all Special Ed teacher candidates. In addition, all teacher candidates, during their clinical experience, are required to take a seminar on the subject of Assistive Technology for students with special needs. Topics such as Universal Design, Universal Design for Learning, and Strengths Based Instruction are re-enforced in this seminar. The use of technology as an instructional assessment and administrative tool, and as a means of communication, is addressed as a goal and assessed during different stages of the candidates' teacher preparation program. Lessons learned during the COVID pandemic have provided new possibilities for students to integrate technology to provide, collect, manage and analyze data using virtual platforms. The College of Education is in the process of creating a BA in educational technology which should be ready for implementation in January or august 2023. Also, techniques on distance learning and distante teaching are being implemented in our courses, so that teachers are prepared for possible upcoming emergencies.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

HIS	PAG	F IN	CL U	DES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All general education teachers are required to take the course EDES 4006; Nature and Needs of Students with Special Needs. Also, the curriculum is being revised to add the course EDES 4055, Educational Strategies for the Inclusion of Students with Special Needs in the Regular Classroom, as required to all programs. Throughout their coursework, students engage in different activities that provide them a basis to understand the diagnostic differences between students with special needs and how these differences impact what happens in the classroom. Prospect teachers are instructed on how to ground their educational strategies on a strength based paradigm when building their students educational programs. Likewise, foundation and methodology courses help students understand diversity and its implications in the practice. During their clinical experience, students participate in various seminars related to special education. Topics addressed during these seminars include, but are not limited to: Inclusion, behavior in the classroom, assistive technology and diversity.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities*Education Act.

One of the topics of Course EDES 4006 is on the Individualized Education Program (IEP). The importance of active participation of all, regular and special education teachers, in the IEP process is addressed throughout this course. Role play, presentations on specific categories of disability, and special projects during this course help students have a better understanding of what students with special needs require to succeed in school. During their field and clinical experiences, professors and clinical supervisors are available to assist teacher candidates in performing their duties, including those related to their responsibilities as part of the IEP team.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is taught as a second language. Participants are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. This TPP has, also, a program at the elementary and secondary levels to teach English as a second Language. Many of our completers are recruited every year by institutions and educational counties in the Mainland to meet the needs of an ever-growing population of Latino students in the US.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Special Education Candidates are required to take course EDES 4006: Nature and Needs of Students with Special Needs, course EDES 3205: Assistive Technology in Education, two methodology courses on general education, and one specific to special education. In addition, they take

between four to five courses in their area of specialty. This program has five areas of emphasis: Visual Needs, Hearing Needs, Learning Disabilities, Cognitive Disabilities, and Emotional Disturbances. Students interested in the area of autism can take courses geared towards a professional certification in this area. During their field experiences and their 300 hour clinical experience, candidates are placed in schools in which they can perform activities that are related to special education as a whole and to their specific areas of emphasis.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal basis of special education is thoroughly discussed in course EDES 4006, Nature and needs of Students with special needs, in course EDES 3205, Assistive Technology in Education, and throughout their coursework in their areas of emphasis. These two courses provide special education teachers, tools to effectively participate as the leading professionals in the IEP team. These tools prepare candidates to: develop and use valid evaluation processes as they relate to the IEP discussion, collect and use information from general education teachers, deal with family member concerns, and provide followup on evaluations and services required to meet the needs of their students in the inclusive and special education environments.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is taught as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. Because of our candidates bilingual background, many are recruited every year by institutions and educational counties in the Mainland. This, to meet the needs of an ever-growing population of Latino students with disabilities in the US who require English proficiency in addition to addressing their special needs to succeed in school.

Contextual Information

On this page, review the questions regarding your program's use of technology, and update as needed.

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

-This TPP maintained accreditation status by the National Council for Accreditation of Teacher Education (NCATE), since 1954. In 2010, NCATE and the Teacher Education Accreditation Council (TEAC) consolidated to constitute a new accrediting body: the Council for the Accreditation of Educator Preparation (CAEP). On November 15, 2018, (CAEP), granted accreditation of this TPP for a period of seven years. -Our teacher preparation program is considered under the category of exemplary by the State Department of Education. This is the highest category awarded to institutions that score between 95 and 100%, based on accreditation status, and performance of students in the Teacher Certification Test (PCMAS). -This TPP has also one of the highest passing rates in the Teacher Certification Test (PCMAS). Additional information on meeting standards for accreditation may be found in: educacion.uprrp.edu/caep/

experience during this academic year

academic year

Students are required to undergo field experiences in three instances in addition to their 300 hr. clinical experience. Each of these instances are reflected in the students' e-portfolio and course assignments. The mentoring hours reported include special seminars and individual meetings with supervising Faculty that occur during the students' clinical experience. The number provided of students in supervised clinical experience reflects two different groups (first semester and 2nd semester). There are no specific programs designed for candidates that are teachers of record. Nevertheless, candidates seeking recertification or an alternative route for those with a BA that is not in education, are provided with required courses to complete a teacher certification.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed	d below. Cli	ck on the link to	view the de	finition(s) in

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	33
13.1202	Teacher Education - Elementary Education	75

13.1328	Teacher Education - History	10
13.1329	Teacher Education - Physics	0
13.1331	Teacher Education - Speech	0

CIP Code	Subject Area	Number Prepared
13.1337	Teacher Education - Earth Science	0
13.14	Teacher Education - English as a Second Language	0
13.99	Education - Other Specify:	0

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

• Yes No

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES:
>> Program Assurances

Note: This section is preloa	ded from the prior year's IPRC.
------------------------------	---------------------------------

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teac based on past hiring and recruitment trends.
• Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes No
Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes No Program does not prepare special education teachers
Prospective general education teachers are prepared to provide instruction to students with disabilities. Yes No
Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes No
Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Students have clinical experiences in a wide array of settings which provide them with a clear understanding of the needs embedded in the educational system. Among these experiences are: tutoring, research, class or school settings observation, class demonstrations and preparation of educational materials. An e-portfolio provides them the opportunity to reflect upon those experiences and the quality of their teacher preparation. It also allows them to develop and implement different strategies according to the needs of the groups of Early Childhood and K-12 students with whom they are performing the student teaching or a field experience. Meeting the needs of diverse learners is rooted in the curriculum and perspectives such as multiple intelligences, learning styles, universal design for learning, differentiation, and brain research are taught not only as subject matter but as a philosophy of this TPP. Institution researchers are also engaged in researching topics on diversity with the intent to make recommendations for curricular

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase program enrollment by five participants.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

Visits to schools and activities for teachers and directors Promotions in web page

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lessons learned: students are interested in STEM and computational thinking, so the program proposed elective courses on computational thinking, and underwent a curricular revision to add a STEM course.

Review Current Year's Goal (2022-23)
7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.
Yes No
8. Describe your goal.
Prepare materials to enrich the STEM course proposed for the curriculum
Set Next Year's Goal (2023-24)
9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.
Yes No
10. Describe your goal.
10. Describe your goal.

6. Provide any additional comments, exceptions and explanations below:

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

- >> Set Next Year's Goal (2023-24)

Report Progress on	Last Year's	Goal ((2021-22)
--------------------	-------------	--------	-----------

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase program enrollment by 10 participants.

3. Did your program meet the goal?

Yes

No

- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

8. Describe your goal.

Increase program enrollment by 5 participants.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in science in 2023-24? If no, leave the next question blank.

10. Describe your goal.

Increase program enrollment by 5 participants.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase program enrollment by 15 participants

3. Did your program meet the goal?

Yes

No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

The University of Puerto Rico implemented a new policy for admissions, which provides alternative requirements for diversity populations. We expect that this could be an opportunity to achieve the goal next year.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.

Yes No

8. Describe your goal.

Increase program enrollment by 5 participants. In recent years the area of special education has been experiencing a decrease in the number of enrollments. During academic year 2022-23 the program will be revised to determine how it can better meet the expectations of prospective candidates and the needs of the local Department of Education.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

• Yes No

10. Describe your goal.

Increase program enrollment by 5 participants.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

10. Describe your goal.

Increase program enrollment by 5 participants.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

TH	IIS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1.	Provide the following information about the use of technology in your teacher preparation programs	Please note that choosing	'yes'	indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))			

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Ye
- b. use technology effectively to collect data to improve teaching and learning
 - Yes
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher candidates are required to take a course on the integration of technology and the use of the computer (TEED 3017 elementary, TEED 3018 secondary, TEED 3027 early childhood). Students are also required to integrate the e-portfolio as an assessment tool of their educational progress as part of a reflective seminar that is provided in three different instances (FAED 4001, 4002, 4003). The concept of Universal Design is included in courses EDES 4055: Teaching strategies for the inclusion of students with special needs, required for all teacher candidates at the elementary level, and in course EDES 3205: Assistive technology for special education, required for all Special Ed teacher candidates. In addition, all teacher candidates, during their clinical experience, are required to take a seminar on the subject of Assistive Technology for students with special needs. Topics such as Universal Design, Universal Design for Learning, and Strengths Based Instruction are re-enforced in this seminar. The use of technology as an instructional assessment and administrative tool, and as a means of communication, is addressed as a goal and assessed during different stages of the candidates' teacher preparation program. Lessons learned during the COVID pandemic have provided new possibilities for students to integrate technology to provide, collect, manage and analyze data using virtual platforms. The College of Education is in the process of creating a BA in educational technology which should be ready for implementation in January or august 2023. Also, techniques on distance learning and distante teaching are being implemented in our courses, so that teachers are prepared for possible upcoming emergencies.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

HIS	PAG	F IN	CL U	DES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All general education teachers are required to take the course EDES 4006; Nature and Needs of Students with Special Needs. Also, the curriculum is being revised to add the course EDES 4055, Educational Strategies for the Inclusion of Students with Special Needs in the Regular Classroom, as required to all programs. Throughout their coursework, students engage in different activities that provide them a basis to understand the diagnostic differences between students with special needs and how these differences impact what happens in the classroom. Prospect teachers are instructed on how to ground their educational strategies on a strength based paradigm when building their students educational programs. Likewise, foundation and methodology courses help students understand diversity and its implications in the practice. During their clinical experience, students participate in various seminars related to special education. Topics addressed during these seminars include, but are not limited to: Inclusion, behavior in the classroom, assistive technology and diversity.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities*Education Act.

One of the topics of Course EDES 4006 is on the Individualized Education Program (IEP). The importance of active participation of all, regular and special education teachers, in the IEP process is addressed throughout this course. Role play, presentations on specific categories of disability, and special projects during this course help students have a better understanding of what students with special needs require to succeed in school. During their field and clinical experiences, professors and clinical supervisors are available to assist teacher candidates in performing their duties, including those related to their responsibilities as part of the IEP team.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is taught as a second language. Participants are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. This TPP has, also, a program at the elementary and secondary levels to teach English as a second Language. Many of our completers are recruited every year by institutions and educational counties in the Mainland to meet the needs of an ever-growing population of Latino students in the US.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Special Education Candidates are required to take course EDES 4006: Nature and Needs of Students with Special Needs, course EDES 3205: Assistive Technology in Education, two methodology courses on general education, and one specific to special education. In addition, they take

between four to five courses in their area of specialty. This program has five areas of emphasis: Visual Needs, Hearing Needs, Learning Disabilities, Cognitive Disabilities, and Emotional Disturbances. Students interested in the area of autism can take courses geared towards a professional certification in this area. During their field experiences and their 300 hour clinical experience, candidates are placed in schools in which they can perform activities that are related to special education as a whole and to their specific areas of emphasis.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal basis of special education is thoroughly discussed in course EDES 4006, Nature and needs of Students with special needs, in course EDES 3205, Assistive Technology in Education, and throughout their coursework in their areas of emphasis. These two courses provide special education teachers, tools to effectively participate as the leading professionals in the IEP team. These tools prepare candidates to: develop and use valid evaluation processes as they relate to the IEP discussion, collect and use information from general education teachers, deal with family member concerns, and provide followup on evaluations and services required to meet the needs of their students in the inclusive and special education environments.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is taught as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. Because of our candidates bilingual background, many are recruited every year by institutions and educational counties in the Mainland. This, to meet the needs of an ever-growing population of Latino students with disabilities in the US who require English proficiency in addition to addressing their special needs to succeed in school.

Contextual Information

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

-This TPP maintained accreditation status by the National Council for Accreditation of Teacher Education (NCATE), since 1954. In 2010, NCATE and the Teacher Education Accreditation Council (TEAC) consolidated to constitute a new accrediting body: the Council for the Accreditation of Educator Preparation (CAEP). On November 15, 2018, (CAEP), granted accreditation of this TPP for a period of seven years. -Our teacher preparation program is considered under the category of exemplary by the State Department of Education. This is the highest category awarded to institutions that score between 95 and 100%, based on accreditation status, and performance of students in the Teacher Certification Test (PCMAS). -This TPP has also one of the highest passing rates in the Teacher Certification Test (PCMAS). Additional information on meeting standards for accreditation may be found in: educacion.uprrp.edu/caep/

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	
Years required of teaching as the teacher of record in a classroom	

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)	27
Optional tool for automatically calculating full-time equivalent faculty in the system	
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	4
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	92
Number of students in supervised clinical experience during this academic year	142

Please provide any additional information about or descriptions of the supervised clinical experiences:

Students do not apply for admission into an alternate route program because there is no formal program at this university for this route. Active students with different majors who take the required courses for teacher certification are accounted for in the traditional report. The numbers above reflect active students completing a second major or students who have completed a bachelors degree in an academic area, other than education, and seek a teacher certification.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed	d below. Cli	ck on the link to	view the de	finition(s) in
the glossary.

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	
13.1202	Teacher Education - Elementary Education	1

CIP Code	Subject Area	Number Prepared
13.1203	Teacher Education - Junior High/Intermediate/Middle School Education	
13.1210	Teacher Education - Early Childhood Education	
13.1301	Teacher Education - Agriculture	
13.1302	Teacher Education - Art	2
13.1303	Teacher Education - Business	
13.1305	Teacher Education - English/Language Arts	1
13.1306	Teacher Education - Foreign Language	
13.1307	Teacher Education - Health	
13.1308	Teacher Education - Family and Consumer Sciences/Home Economics	
13.1309	Teacher Education - Technology Teacher Education/Industrial Arts	
13.1311	Teacher Education - Mathematics	
13.1312	Teacher Education - Music	
13.1314	Teacher Education - Physical Education and Coaching	
13.1315	Teacher Education - Reading

13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify:	

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher	preparation	provider	grant d	degrees	upon	comp	letion	of its	programs?

Yes

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

CIP Code	Academic Major	Number Prepared

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES	5:
--------------------	----

>> Program Assurances

teach.

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to based on past hiring and recruitment trends.
Yes No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
Yes No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- 7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
 - Yes

No

- No
- 8. Describe your institution's most successful strategies in meeting the assurances listed above:

Students who take courses for the state teacher certification in the College of Education have clinical experiences in a wide array of settings which provide them with a clear understanding of the needs embedded in the educational system. The e-portfolio provides them the opportunity to reflect upon those experiences and the quality of their teacher preparation. Meeting the needs of diverse learners is rooted in the curriculum and perspectives such as multiple intelligences, learning styles, universal design for learning, differentiation, and brain research are taught not only as subject matter but as a philosophy of this Faculty. This applies to alternative and traditional routes.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase enrollment by three participants.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

Visits to schools and activities for teachers and directors Promotions in web page

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lessons learned: students are interested in STEM and computational thinking, so the program proposed elective courses on computational thinking, and underwent a curricular revision to add a STEM course.

Review Current Year's Goal (2022-23)
7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.
• Yes • No
8. Describe your goal.
This TPP will increase efforts to reach students completing a first major in mathematics to interest them in completing all the requirements for teacher certification. We will visit the Faculty of Natural Sciences to present graduate students with the option of certification as teachers via the alternate route. As well, will keep communication with the local Department of Education for recertification of teachers in mathematics and certification of those that have been temporarily contracted but must complete all certification requirements (alternate route).
Set Next Year's Goal (2023-24)
9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.
• Yes No
10. Describe your goal.
Increase enrollment by three participants.

6. Provide any additional comments, exceptions and explanations below:

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Yes No

10. Describe your goal.

Increase program enrollment by 5 participants.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. (§205(a)(1)(D), §205(a)(1)(E))

Note: This section is preloaded from the prior year's IPRC.

THI	S PAGE INCLU	JDES:		
>>	Low-Performin	<u>ng</u>		

Low-Performing

1. Is your teacher	preparation program	ii currently approv	red or accredited?
Vaa			

No

If yes, please specify the organization(s) that approved or accredited your program:

✓ State

✓ CAEP

AAQEP

Other specify:

Middle States Comission on Higher Education

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

ТН	IS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
- b. use technology effectively to collect data to improve teaching and learning
 - Yes No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher candidates are required to take a course on the integration of technology and the use of the computer (TEED 3017 elementary, TEED 3018 secondary, TEED 3027 early childhood). Students are also required to integrate the e-portfolio as an assessment tool of their educational progress as part of a reflective seminar that is provided in three different instances (FAED 4001, 4002, 4003). The concept of Universal Design is included in courses EDES 4055: Teaching strategies for the inclusion of students with special needs, required for all teacher candidates at the elementary level, and in course EDES 3205: Assistive technology for special education, required for all Special Ed teacher candidates. In addition, all teacher candidates, during their clinical experience, are required to take a seminar on the subject of Assistive Technology for students with special needs. Topics such as Universal Design, Universal Design for Learning, and Strengths Based Instruction are re-enforced in this seminar. The use of technology as an instructional assessment and administrative tool, and as a means of communication, is addressed as a goal and assessed during different stages of the candidates' teacher preparation program. Lessons learned during the COVID pandemic have provided new possibilities for students to integrate technology to provide, collect, manage and analyze data using virtual platforms. The College of Education is in the process of creating a BA in educational technology which should be ready for implementation in January or august 2023. Also, techniques on distance learning and distante teaching are being implemented in our courses, so that teachers are prepared for possible upcoming emergencies.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

HIS	PAG	F IN	ICI I	JDES	ŀ

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All general education teachers are required to take course EDES 4006; Nature and Needs of Students with Special Needs. Throughout their coursework, students engage in different activities that provide them a basis to understand the diagnostic differences between students with special needs and how these differences impact what happens in the classroom. Prospect teachers are instructed on how to base their educational strategies on a strength based paradigm to build their students educational programs. Likewise, foundation and methodology courses help students understand diversity and it's implications in the practice. During their clinical experience, students participate in various seminars. Topics addressed during these seminars include, but are not limited to: Inclusion, behavior in the classroom, assistive technology and diversity.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

One of the topics of Course EDES 4006 is on the Individualized Education Program (IEP). The importance of active participation of all, regular and special education teachers, in the IEP process is addressed throughout this course. Role play, presentations on specific categories of disability, and special projects during this course help students have a better understanding of what students with special needs require to succeed in school. During their field and clinical experiences, professors and clinical supervisors are available to assist teacher candidates in performing their duties, including those related to their responsibilities as part of the IEP team.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is tout as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. This TPP has, also, a program at the elementary and secondary levels to teach English as a second Language. Many of our completers are recruited every year by institutions and educational counties in the Mainland to meet the needs of an ever-growing population of Latino students in the US.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Special Education Candidates are required to take course EDES 4006: Nature and Needs of Students with Special Needs, course EDES 3205: Assistive Technology in Education, two methodology courses on general education, and one specific to special education. In addition, they take between four to five courses in their area of specialty. This program has five areas of emphasis: Visual Needs, Hearing Needs, Learning Disabilities, Cognitive Disabilities, and Emotional Disturbances. Students interested in the area of autism can take courses geared towards a certification in this

area. During their field experiences and their 300 hour clinical experience, candidates are placed in schools in which they can perform activities that are related to special education as a whole and to their specific areas of emphasis.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal basis of special education is thoroughly discussed in course EDES 4006, Nature and needs of Students with special needs, in course EDES 3205, Assistive Technology in Education, and throughout their coursework in their areas of emphasis. These two courses provide special education teachers, tools to effectively participate as the leading professionals in the IEP team. These tools prepare candidates to: develop and use valid evaluation processes as they relate to the IEP discussion, collect and use information from general education teachers, deal with family member concerns, and provide followup on evaluations and services required to meet the needs of their students in the inclusive and special education environments.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is tout as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. Because of our candidates bilingual background, many are recruited every year by institutions and educational counties in the Mainland. This, to meet the needs of an ever-growing population of Latino students with disabilities in the US who require English proficiency in addition to addressing their special needs, to succeed in school.

Contextual Information

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

-This TPP maintained accreditation status by the National Council for Accreditation of Teacher Education (NCATE), since 1954. In 2010, NCATE and the Teacher Education Accreditation Council (TEAC) consolidated to constitute a new accrediting body: the Council for the Accreditation of Educator Preparation (CAEP). On November 15, 2018, (CAEP), granted accreditation of this unit for a period of seven years. -Our teacher preparation program is considered under the category of exemplary by the State Department of Education. This is the highest category awarded to institutions that score between 95 and 100%, based on accreditation status, and performance of students in the Teacher Certification Test (PCMAS). -This TPP has also one of the highest passing rates in the Teacher Certification Test (PCMAS). Additional information on meeting standards for accreditation may be found in: educacion.uprrp.edu/caep/

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification
Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.
Certification of submission
I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the Higher Education Opportunity Act, Title II: Reporting Reference and User Manual.

SECTION I: PROGRAM INFORMATION

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

CIP Code	Subject Area	Number Prepared
13.10	Teacher Education - Special Education	
13.1202	Teacher Education - Elementary Education	1

13.1328	Teacher Education - History	1
13.1329	Teacher Education - Physics	
13.1331	Teacher Education - Speech	

CIP Code	Subject Area	Number Prepared
13.1337	Teacher Education - Earth Science	
13.14	Teacher Education - English as a Second Language	
13.99	Education - Other Specify:	

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher	preparation	provider	grant d	degrees	upon	comp	letion	of its	programs?

Yes

No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

CIP Code	Academic Major	Number Prepared
13.10	Teacher Education - Special Education

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

THIS PAGE INCLUDES	5:
--------------------	----

>> Program Assurances

teach.

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to based on past hiring and recruitment trends.
Yes No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
Yes No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- 7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
 - Yes

No

- No
- 8. Describe your institution's most successful strategies in meeting the assurances listed above:

Students who take courses for the state teacher certification in the College of Education have clinical experiences in a wide array of settings which provide them with a clear understanding of the needs embedded in the educational system. The e-portfolio provides them the opportunity to reflect upon those experiences and the quality of their teacher preparation. Meeting the needs of diverse learners is rooted in the curriculum and perspectives such as multiple intelligences, learning styles, universal design for learning, differentiation, and brain research are taught not only as subject matter but as a philosophy of this Faculty. This applies to alternative and traditional routes.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

Increase enrollment by three participants.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

Visits to schools and activities for teachers and directors Promotions in web page

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lessons learned: students are interested in STEM and computational thinking, so the program proposed elective courses on computational thinking, and underwent a curricular revision to add a STEM course.

Review Current Year's Goal (2022-23)
7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.
• Yes • No
8. Describe your goal.
This TPP will increase efforts to reach students completing a first major in mathematics to interest them in completing all the requirements for teacher certification. We will visit the Faculty of Natural Sciences to present graduate students with the option of certification as teachers via the alternate route. As well, will keep communication with the local Department of Education for recertification of teachers in mathematics and certification of those that have been temporarily contracted but must complete all certification requirements (alternate route).
Set Next Year's Goal (2023-24)
9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.
• Yes No
10. Describe your goal.
Increase enrollment by three participants.

6. Provide any additional comments, exceptions and explanations below:

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

2. Describe your goal.

Increase program enrollment by 3 participants

3. Did your program meet the goal?

Yes

No

- ${\bf 4.\ Description\ of\ strategies\ used\ to\ achieve\ goal,\ if\ applicable:}$
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

The University of Puerto Rico implemented a new policy for admissions, which provides alternative requirements for diversity populations. We expect that this could be an opportunity to achieve the goal next year including the alternate route.

Review Current Year's Goal (2022-23)

Yes No

8. Describe your goal.

The area of special education is mostly met through the traditional route. Nevertheless, students in majors related to psychology, social work, and rehabilitative services will be targeted to interest them in this area at the undergraduate or graduate levels.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in special education in 2023-24? If no, leave the next question blank.

10. Describe your goal.

Increase program enrollment by 3 participants.

SECTION II: ANNUAL GOALS

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2021-22)
- >> Review Current Year's Goal (2022-23)
- >> Set Next Year's Goal (2023-24)

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in instruction of limited English proficient students in 2021-22?

If no, leave remaining questions for 2021-22 blank (or clear responses already entered).

- Yes
- No

2. Describe your goal.

Increase program enrollment by 5 participants

- 3. Did your program meet the goal?
 - Yes
 - _ No
- 4. Description of strategies used to achieve goal, if applicable:
- 5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
- 6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in instruction of limited English proficient students in 2022-23? If no, leave the next question blank.

• Yes

8. Describe your goal.

This TPP will increase efforts to reach students completing a first major in English to interest them in completing all the requirements for teacher certification. As well, will keep communication with the local Department of Education for recertification of teachers in English and certification of those that have been temporarily contracted but must complete all certification requirements in this area (alternate route).

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

Yes No

10. Describe your goal.

Increase program enrollment by 5 participants.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

ТН	IS PAGE INCLUDES:
>>	Use of Technology

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Yes
- b. use technology effectively to collect data to improve teaching and learning
 - Yes No
- c. use technology effectively to manage data to improve teaching and learning
 - Yes
- d. use technology effectively to analyze data to improve teaching and learning
 - Yes
- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All teacher candidates are required to take a course on the integration of technology and the use of the computer (TEED 3017 elementary, TEED 3018 secondary, TEED 3027 early childhood). Students are also required to integrate the e-portfolio as an assessment tool of their educational progress as part of a reflective seminar that is provided in three different instances (FAED 4001, 4002, 4003). The concept of Universal Design is included in courses EDES 4055: Teaching strategies for the inclusion of students with special needs, required for all teacher candidates at the elementary level, and in course EDES 3205: Assistive technology for special education, required for all Special Ed teacher candidates. In addition, all teacher candidates, during their clinical experience, are required to take a seminar on the subject of Assistive Technology for students with special needs. Topics such as Universal Design, Universal Design for Learning, and Strengths Based Instruction are re-enforced in this seminar. The use of technology as an instructional assessment and administrative tool, and as a means of communication, is addressed as a goal and assessed during different stages of the candidates' teacher preparation program. Lessons learned during the COVID pandemic have provided new possibilities for students to integrate technology to provide, collect, manage and analyze data using virtual platforms. The College of Education is in the process of creating a BA in educational technology which should be ready for implementation in January or august 2023. Also, techniques on distance learning and distante teaching are being implemented in our courses, so that teachers are prepared for possible upcoming emergencies.

SECTION VI: TEACHER TRAINING

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All general education teachers are required to take course EDES 4006; Nature and Needs of Students with Special Needs. Throughout their coursework, students engage in different activities that provide them a basis to understand the diagnostic differences between students with special needs and how these differences impact what happens in the classroom. Prospect teachers are instructed on how to base their educational strategies on a strength based paradigm to build their students educational programs. Likewise, foundation and methodology courses help students understand diversity and it's implications in the practice. During their clinical experience, students participate in various seminars. Topics addressed during these seminars include, but are not limited to: Inclusion, behavior in the classroom, assistive technology and diversity.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

One of the topics of Course EDES 4006 is on the Individualized Education Program (IEP). The importance of active participation of all, regular and special education teachers, in the IEP process is addressed throughout this course. Role play, presentations on specific categories of disability, and special projects during this course help students have a better understanding of what students with special needs require to succeed in school. During their field and clinical experiences, professors and clinical supervisors are available to assist teacher candidates in performing their duties, including those related to their responsibilities as part of the IEP team.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is tout as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. This TPP has, also, a program at the elementary and secondary levels to teach English as a second Language. Many of our completers are recruited every year by institutions and educational counties in the Mainland to meet the needs of an ever-growing population of Latino students in the US.

- 2. Does your program prepare special education teachers?
 - Yes
 - No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Special Education Candidates are required to take course EDES 4006: Nature and Needs of Students with Special Needs, course EDES 3205: Assistive Technology in Education, two methodology courses on general education, and one specific to special education. In addition, they take between four to five courses in their area of specialty. This program has five areas of emphasis: Visual Needs, Hearing Needs, Learning Disabilities, Cognitive Disabilities, and Emotional Disturbances. Students interested in the area of autism can take courses geared towards a certification in this

area. During their field experiences and their 300 hour clinical experience, candidates are placed in schools in which they can perform activities that are related to special education as a whole and to their specific areas of emphasis.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal basis of special education is thoroughly discussed in course EDES 4006, Nature and needs of Students with special needs, in course EDES 3205, Assistive Technology in Education, and throughout their coursework in their areas of emphasis. These two courses provide special education teachers, tools to effectively participate as the leading professionals in the IEP team. These tools prepare candidates to: develop and use valid evaluation processes as they relate to the IEP discussion, collect and use information from general education teachers, deal with family member concerns, and provide followup on evaluations and services required to meet the needs of their students in the inclusive and special education environments.

c. Effectively teach students who are limited English proficient.

The University of Puerto Rico is mainly a Spanish Speaking Institution. Likewise, most of our schools in our educational system are mainly Spanish speaking. Regardless, English is tout as a second language. Students are instructed to meet the needs of their students within a context of diversity. All of our students are required to take English courses as part of their general coursework. Because of our candidates bilingual background, many are recruited every year by institutions and educational counties in the Mainland. This, to meet the needs of an ever-growing population of Latino students with disabilities in the US who require English proficiency in addition to addressing their special needs, to succeed in school.

Contextual Information

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

-This TPP maintained accreditation status by the National Council for Accreditation of Teacher Education (NCATE), since 1954. In 2010, NCATE and the Teacher Education Accreditation Council (TEAC) consolidated to constitute a new accrediting body: the Council for the Accreditation of Educator Preparation (CAEP). On November 15, 2018, (CAEP), granted accreditation of this unit for a period of seven years. -Our teacher preparation program is considered under the category of exemplary by the State Department of Education. This is the highest category awarded to institutions that score between 95 and 100%, based on accreditation status, and performance of students in the Teacher Certification Test (PCMAS). -This TPP has also one of the highest passing rates in the Teacher Certification Test (PCMAS). Additional information on meeting standards for accreditation may be found in: educacion.uprrp.edu/caep/
